

From the Chairperson of the  
Lions International Understanding and Cooperation  
Committee, Lion Carol McGaughey

Has your club tried Club Twinning with a Lions Club in another nation?  
If you answered "no," why not?

My club is twinning with the Lions Club of Castries, St. Lucia in the West Indies. We exchange newsletters and tell each other about the projects we do. My husband and I made a visit to the club and were very well received and exchanged gifts.

I have contacted the West Shamokin Leo Club to see if they would like to twin with the Leo Club of Castries. I am now awaiting an answer before I contact the St. Lucia Lions Club.

We are a world service organization. This is just another way we can interact with Lions of the world and learn about their cultures.

If you would like to try twinning, there are clubs in countries around the world looking for clubs in the United States to twin with. To find them, go to the Lions International web page ([http://www.lionsclubs.org/EN/content/programs\\_int\\_twinning.shtml](http://www.lionsclubs.org/EN/content/programs_int_twinning.shtml)). If you have any trouble, contact me and I will be glad to help you find a club or fill out the forms for International.
