Hello Lions,

You should have received the information about the District 14-N Tree Planting Project by now. It's in this month's District newsletter. If you haven't received your newsletter yet, the information is available on our website at lionspa14n.org. Just look for the little trees.

So, we are going to plant trees. Sounds like hard work, but this can be a great time to get out there and let your community know that we are Lions and we care. This may be your opportunity to get others involved in your project. Maybe the schools, Girl Scouts, Boy Scouts or groups in your community would like to work with you for this project. Or, perhaps another Lions club would like to work with your club.

Invite others to your tree planting event such as the mayor, city or township councilmen. Don't forget the local news media. Let them know what you are doing and when. Use this project to spread the word about your club.

Perhaps, with all of this, you might consider inviting a nurseryman to your club to speak about tree planting to get your project going. There are many ways to get involved and get rolling. If you have questions and would like us to come to your club and speak about this project, we will be glad to do so.

Now, where to get trees. There are many sources for young trees. Some suggestions follow:

Home Depot

Lowe's

Your local greenhouse or nursery

Eisler's Nursery is offering discounted prices. However, they are a wholesale nursery, so if you are interested, please contact us. These trees will be a little more expensive, but if you are planning a tree planting for an honored club member, or perhaps a planting in

a public park, their trees are really nice.

If you are going to wait until spring, the Pennsylvania Forestry Department has offered the opportunity to purchase trees from their tree nursery.

We would appreciate it if you would let us know what you are planning for this project. We are working on District wide public relations for this project, premiering all of your hard work.

Once the tree planting event has taken place we would also appreciate it if you would send a photo to us with the name of the club, clubs, schools, Girl Scouts, Boy Scouts or groups in your community and mayor, city or township councilmen that was involved in this event. Don't forget the local news media that was at the event. You will also need these photos in order to get the District Governor's contest points.

So, lets have some fun, plant trees, help the environment and spread the word about the Lions and what they can do.

Yours in Lionsism,

Lions Jim and Helen Eisler
District 14-N Environmental Committee
